♦ SUMMARY:

Passionate full-stack web developer with hands-on experience in building interactive and responsive web applications. Proficient in **JavaScript, React, Tailwind, and GSAP** for frontend and **Node.js, Express, and Appwrite** for backend development. A self-motivated developer, always eager to learn and contribute innovative solutions.

♦ TECHNICAL SKILLS:

- **Frontend:** JavaScript, React.js, Redux Toolkit, Tailwind CSS, GSAP
- **Backend:** Node.js, Express.js, Appwrite (BaaS)
- **Database:** MongoDB, Mongoose
- **Tools & Other:** Git, GitHub, REST API, HTML5, CSS3, React Hook Form

♦ PROJECTS:

 [\[Live Link\]](#), [Github Repo](#) **Blog WebApp** (React, Tailwind CSS, Appwrite, React Hook Form)

- Developed a full-fledged blogging platform with authentication, rich text editing, and a clean UI.
- Used Appwrite for authentication and database management, improving security and performance.
- Implemented React Hook Form for efficient form handling and TinyMCE for a real-time text editor.

 [\[Live Link\]](#), [Github Repo](#) **Google Drive Clone** (EJS, Tailwind CSS, MongoDB, Supabase)

- Developed a basic file uploading platform with authentication, storage, and a clean UI.
- Used JWT for authentication, MongoDB for database and Supabase for storage
- Download links are created by signed url which expire within a certain time

 [\[Live Link\]](#), [Github Repo](#) **Tinder UI Clone** (JavaScript, GSAP, Tailwind CSS)

- Created a Tinder-inspired swipe effect using GSAP animations for smooth transitions.
- Implemented image fetching from Unsplash to enhance UI realism.

 [\[Live Link\]](#), [Github Repo](#) **Sidcup Golf Animated Website** (HTML, CSS, Javascript, GSAP)

- Created Animations using GSAP, Logic Part using Javascript, And Styling with Tailwind css

 [\[Live Link\]](#), [Github Repo](#) **thisismagma.com Animated Website UI clone** - (HTML, CSS, GSAP, CANVAS (html element))

- Created scroll based animation with canvas and GSAP.

 [\[Live Link\]](#), [Github Repo](#) **X.com UI Clone** (HTML, Tailwind CSS)

- Recreated **Twitter's modern UI** using **Tailwind CSS** for styling and responsiveness.

[ [More Projects on GitHub](#), like [Image Editor](#), [Music Player](#), [Note App](#), [Javascript Games](#), [Javascript Applications](#), etc.]

♦ EXPERIENCE:

 **Freelance Web Developer | Self-employed | 2023 - Present**

- Built interactive client websites and web applications.
- Created UI/UX-focused designs and developed both frontend & backend functionalities.
- Followed best coding practices and optimized performance for better user experience.

♦ Education:

 **Nobel Academy, New Baneshwor** – Science Stream (+2)

 **2024 – Present** (Currently in 12th Grade)
